Neurological Research

A journal of progress in Neurosurgery and Neurosciences

Volume 8 1986

SUBJECT INDEX

Acetazolamide
  CBF, perfusion; 231
Alignment
  brain artery, polarized light microscopy, tunica media; 66
Aneurysm
  SAH, surgery; 183
Anterior fontanelle
  intracranial pressure, pulse waveform, transducer; 93
Arachidonate metabolites
  SAH, vasospasm, prostaglandins; 25
Arachidonic acid
  ischaemia, fatty acid free, pentobarbital; 33
  oedema, lipoxygenase, leukotrienes; 53
Arteriovenous malformations
  caudate nucleus, choroid plexus, thalamus; 18
  embolization, isobutyl cyanoacrylate; 109
BAEP (brainstem evoked potentials)
  evoked potentials, stereotactic lesion; 114
  supratentorial mass lesion, SEP; 13
Blood volume
  CBF, cerebral ischaemia; 177
Blood–brain barrier
  cerebral ischaemia, CBF; 146
Blow-out fracture
  orbit, reconstructive surgery; 221
Brachial plexus spinal root avulsion
  nerve injury, cross-anastomosis; 117
Brain artery
  polarized light microscopy, tunica media, alignment; 66
Brain oedema
  dexamethasone, glucocorticoid receptors; 39
Caudate nucleus
  arteriovenous malformations, choroid plexus, thalamus; 18
CBF (cerebral blood flow)
  blood volume, cerebral ischaemia; 177
  cerebral ischaemia, blood–brain barrier; 146
  hydrocephalus; 169
  perfusion, acetazolamide; 231
  PET, glioma; 164
  xenon-133 technique; 237
CBFV (carotid blood flow velocity)
  hypertension, epidural pressure pulse wave; 105
Cerebral aneurysm
  screening, computed angiotomography, patient monitoring; 88
Cerebral ischaemia
  blood volume, CBF; 177
  blood–brain barrier, CBF; 146
  free radicals, mannitol, vitamin E; 75
  reperfusion, MCA; 102
Chemotherapy
  neoplasm, interferon; 152
Choroid plexus
  arteriovenous malformations, caudate nucleus, thalamus; 18
Computed angiotomography
  cerebral aneurysm, screening, patient monitoring; 88
Computer
  stereotactic surgery, imaging; 201
Cross-anastomosis
  nerve injury, brachial plexus spinal root avulsion; 117
CSF (cerebro spinal fluid)
  neuroadenolysis, pain control; 194
CSF dynamics
  syringomyelia, hydrocephalus; 130
CT scanning lasers
  stereotactic surgery, Parkinson's disease, thalamus; 2
Dexamethasone
  brain oedema, glucocorticoid receptors; 39
Diagnosis
  multiple sclerosis, fatty acid unsaturated; 57
Dorsal horn
  thalamic stimulation, nociceptive neuron, trigeminal rhizotomy; 97
Embolization
  arteriovenous malformations, isobutyl cyanoacrylate; 109
Epidural pressure pulse wave
  CBFV, hypertension; 105
Etimodate
  ischaemia, MCA; 209
Evoked potentials
  BAEP, stereotactic lesion; 114
  and see SEP
Fatty acid, free
  ischaemia, arachidonic acid, pentobarbital; 33
Fatty acid, unsaturated
  multiple sclerosis, diagnosis; 57
Free radicals
  cerebral ischaemia, mannitol, vitamin E; 75
  ischaemia, lipids; 214
Ganglioside
  glioma; 123
Glioma
  ganglioside; 123
  immunotherapy, LAK cells, interleukin-2; 81
  PET, CBF; 164
Glucocorticoid receptors
  brain oedema, dexamethasone; 39
Head injury
  monitoring, intracranial pressure, hydrocephalus; 44
Hydrocephalus
  CBF; 169
  monitoring, intracranial pressure, head injury; 44
  syringomyelia, CSF dynamics; 130
Hypertension
  CBFV, epidural pressure pulse wave; 105
Hypoxia
  SEP, ischaemia, thalamus; 157
Imaging
  stereotactic surgery, computer; 201
Immunotherapy
  glioma, LAK cells, interleukin-2; 81
Interferon
  neoplasm, chemotherapy; 152
Interleukin-2
  glioma, immunotherapy, LAK cells; 81
Intracranial pressure
  monitoring, head injury, hydrocephalus; 44
  pulse waveform, anterior fontanelle, transducer; 93
Ischaemia
  fatty acid, free, arachidonic acid, pentobarbital; 33
  free radicals, lipids; 214
  MCA, etimodate; 209
  SEP, hypoxia, thalamus; 157
Isobutyl cyanoacrylate
  arteriovenous malformations, embolization; 109
LAK cells
  glioma, immunotherapy, interleukin-2; 81
Laser surgery
  lipoma; 225
Leukotrienes
  oedema, lipoxygenase, arachidonic acid; 53
Lidocaine
  pain control; 189
Lipids
  ischaemia, free radicals; 214

SUBJECT INDEX

Acetazolamide
  CBF, perfusion; 231
Alignment
  brain artery, polarized light microscopy, tunica media; 66
Aneurysm
  SAH, surgery; 183
Anterior fontanelle
  intracranial pressure, pulse waveform, transducer; 93
Arachidonate metabolites
  SAH, vasospasm, prostaglandins; 25
Arachidonic acid
  ischaemia, fatty acid free, pentobarbital; 33
  oedema, lipoxygenase, leukotrienes; 53
Arteriovenous malformations
  caudate nucleus, choroid plexus, thalamus; 18
  embolization, isobutyl cyanoacrylate; 109
BAEP (brainstem evoked potentials)
  evoked potentials, stereotactic lesion; 114
  supratentorial mass lesion, SEP; 13
Blood volume
  CBF, cerebral ischaemia; 177
Blood–brain barrier
  cerebral ischaemia, CBF; 146
Blow-out fracture
  orbit, reconstructive surgery; 221
Brachial plexus spinal root avulsion
  nerve injury, cross-anastomosis; 117
Brain artery
  polarized light microscopy, tunica media, alignment; 66
Brain oedema
  dexamethasone, glucocorticoid receptors; 39
Caudate nucleus
  arteriovenous malformations, choroid plexus, thalamus; 18
CBF (cerebral blood flow)
  blood volume, cerebral ischaemia; 177
  cerebral ischaemia, blood–brain barrier; 146
  hydrocephalus; 169
  perfusion, acetazolamide; 231
  PET, glioma; 164
  xenon-133 technique; 237
CBFV (carotid blood flow velocity)
  hypertension, epidural pressure pulse wave; 105
Cerebral aneurysm
  screening, computed angiotomography, patient monitoring; 88
Cerebral ischaemia
  blood volume, CBF; 177
  blood–brain barrier, CBF; 146
  free radicals, mannitol, vitamin E; 75
  reperfusion, MCA; 102
Chemotherapy
  neoplasm, interferon; 152
Choroid plexus
  arteriovenous malformations, caudate nucleus, thalamus; 18
Computed angiotomography
  cerebral aneurysm, screening, patient monitoring; 88
Computer
  stereotactic surgery, imaging; 201
Cross-anastomosis
  nerve injury, brachial plexus spinal root avulsion; 117
CSF (cerebro spinal fluid)
  neuroadenolysis, pain control; 194
CSF dynamics
  syringomyelia, hydrocephalus; 130
CT scanning lasers
  stereotactic surgery, Parkinson's disease, thalamus; 2
Dexamethasone
  brain oedema, glucocorticoid receptors; 39
Diagnosis
  multiple sclerosis, fatty acid unsaturated; 57
Dorsal horn
  thalamic stimulation, nociceptive neuron, trigeminal rhizotomy; 97
Embolization
  arteriovenous malformations, isobutyl cyanoacrylate; 109
Epidural pressure pulse wave
  CBFV, hypertension; 105
Etimodate
  ischaemia, MCA; 209
Evoked potentials
  BAEP, stereotactic lesion; 114
  and see SEP
Fatty acid, free
  ischaemia, arachidonic acid, pentobarbital; 33
Fatty acid, unsaturated
  multiple sclerosis, diagnosis; 57
Free radicals
  cerebral ischaemia, mannitol, vitamin E; 75
  ischaemia, lipids; 214
Ganglioside
  glioma; 123
Glioma
  ganglioside; 123
  immunotherapy, LAK cells, interleukin-2; 81
  PET, CBF; 164
Glucocorticoid receptors
  brain oedema, dexamethasone; 39
Head injury
  monitoring, intracranial pressure, hydrocephalus; 44
Hydrocephalus
  CBF; 169
  monitoring, intracranial pressure, head injury; 44
  syringomyelia, CSF dynamics; 130
Hypertension
  CBFV, epidural pressure pulse wave; 105
Hypoxia
  SEP, ischaemia, thalamus; 157
Imaging
  stereotactic surgery, computer; 201
Immunotherapy
  glioma, LAK cells, interleukin-2; 81
Interferon
  neoplasm, chemotherapy; 152
Interleukin-2
  glioma, immunotherapy, LAK cells; 81
Intracranial pressure
  monitoring, head injury, hydrocephalus; 44
  pulse waveform, anterior fontanelle, transducer; 93
Ischaemia
  fatty acid, free, arachidonic acid, pentobarbital; 33
  free radicals, lipids; 214
  MCA, etimodate; 209
  SEP, hypoxia, thalamus; 157
Isobutyl cyanoacrylate
  arteriovenous malformations, embolization; 109
LAK cells
  glioma, immunotherapy, interleukin-2; 81
Laser surgery
  lipoma; 225
Leukotrienes
  oedema, lipoxygenase, arachidonic acid; 53
Lidocaine
  pain control; 189
Lipids
  ischaemia, free radicals; 214

Lipoma
laser surgery; 225
Lipoxygenase
oeadema, leukotrienes, arachidonic acid; 53
Mannitol
cerebral ischaemia, free radicals, Vitamin E; 75
MCA (middle cerebral artery)
ischaemia, etimodate; 209
reperfusion, cerebral ischaemia; 102
Monitoring
intracranial pressure, head injury, hydrocephalus; 44
Multiple sclerosis
diagnosis, fatty acid unsaturated; 57
Neoplasm
chemotherapy, interferon; 152
Nerve injury
brachial plexus spinal root avulsion, cross-anastomosis; 117
Neuroadenolysis
pain control, CSF; 194
Nimodipine
vasospasm, SAH; 243
Nociceptive neuron
thalamic stimulation, dorsal horn, trigeminal rhizotomy; 97
Oedema
lipoxygenase, leukotrienes, arachidonic acid; 53
Orbit
blow-out fracture, reconstructive surgery; 221
Pain control
lidocaine; 189
neuroadenolysis, CSF; 194
Parkinson's disease
stereotactic surgery, CT scanning lasers, thalamus; 2
Patient monitoring
cerebral aneurysm, screening, computed angiotomography; 88
Pentobarbital
ischaemia, fatty acid free, arachidonic acid; 33
Perfusion
CBF, acetazolamide; 231
PET (positron emission tomography)
glioma, CBF; 164
Polarized light microscopy
brain artery, tunica media, alignment; 66
Prostaglandins
SAH, vasospasm, arachidonate metabolites; 25
Pulse waveform
intracranial pressure, anterior fontanelle, transducer; 93
Reconstructive surgery
blow-out fracture, orbit; 221
Reperfusion
cerebral ischaemia, MCA; 102
SAH (sub arachnoid haemorrhage)
aneurysm, surgery; 183
vasospasm, arachidonate metabolites, prostaglandins; 25
vasospasm, nimodipine; 243
Screening
cerebral aneurysm, computed angiotomography, patient monitoring; 88
SEP (somatosensory evoked potentials)
hypoxia, ischaemia, thalamus; 157
supratentorial mass lesion, BAEP; 13
Stereotactic lesion
evoked potentials, BAEP; 114
Stereotactic surgery
computer, imaging; 201
CT scanning lasers, Parkinson's disease, thalamus; 2
Supratentorial mass lesion
BAEP, SEP; 13
Surgery
aneurysm, SAH; 183
Syringomyelia
hydrocephalus, CSF dynamics; 130
Thalamic stimulation
dorsal horn, nociceptive neuron, trigeminal rhizotomy; 97
Thalamus
arteriovenous malformations, caudate nucleus, choroid plexus; 18
SEP, hypoxia, ischaemia; 157
stereotactic surgery, CT scanning lasers, Parkinson's disease; 2
Transducer
intracranial pressure, pulse waveform, anterior fontanelle; 93
Trigeminal rhizotomy
thalamic stimulation, dorsal horn, nociceptive neuron; 97
Tunica media
brain artery, polarized light microscopy, alignment; 66
Vasospasm
SAH, arachidonate metabolites, prostaglandins; 25
SAH, nimodipine; 243
Vitamin E
cerebral ischaemia, free radicals, mannitol; 75
Xenon-133 technique
CBF; 237
